Gold'n Plump: A Higher Standard of Chicken

When it comes to chicken, our beliefs are simple. We believe chicken:

- Should be raised by family farmers, who know what's best for chickens, not corporate chicken factories.
- Should be free to roam in modern, climate-controlled barns where they are protected from exposure to disease and environmental stress factors and eat nutritious feed made primarily of corn.
- Should taste like chicken — nothing more. It should contain no added hormones or artificial ingredients.

Products for Every Menu

Gold'n Plump offers a wide selection of foodservice products that reduce labor, enhance portion control and provide an exceptional presentation and eating experience. Whether you're a c-store or casual dining establishment, we've got you covered. Shipped fresh, never frozen, for exceptional flavor and packaged in exact-weight cases. PLUS, all products are sold net-weight, simplifying inventory control.

Our foodservice line includes:

- **Fresh Premium Products:** Custom Cut super-trimmed and highly-cleaned marinated chicken products and Signature Gold® rotisserie chicken. All consistently sized for end-user satisfaction.
- **Fresh Gold'n Cut Products:** A wide variety of quality marinated and non-marinated chicken that will fit any menu or signature entree.
- **Individually Quick Frozen Products:** A great selection of boneless skinless breasts and wing products. All products ready to be baked, fried, braised or barbecued — with wonderful performance.

Profitability for Every Partner

We measure our success in terms of the success of our partners. For that reason, our partnerships are built on mutual profitability with the promise of the best quality: products, service levels, category management expertise, and collaborative business approach in the industry today.
