Bold cheese flavor and profits from the **Big Name in Cheese Crackers**

A bold cheese taste. A big opportunity.

- Consumers have spoken: Cheez-It® Crackers are the number one Cheese Cracker brand.¹
- Cheez-It® Crackers are baked and offer your customers the value of being made with real cheese.
- Available in bold, delicious flavors including: Original, White Cheddar, Reduced Fat and Hot & Spicy TABASCO®.

Several sizes to meet any savory snack need.

- **New 3 oz. bags** offer consumers multiple servings per bag, enough value to garner a retail price of \$1 or more!
- 2 oz. bags are a step up in value compared to the 1.5 oz. bag. With justification for a slightly higher price, operators can raise their profit 30% or more per unit sold.*
- 1.5 oz. bags bring premium brand equity and single-serve convenience to your snack racks.
- Bulk varieties are perfect for catering and social venues.

The 2 oz. and 3 oz. bags offer more, including more value and more profits!

We didn't reduce the taste, just the fat.

- Reduced Fat Cheez-It® Crackers deliver all the flavor of Original Cheez-It® Crackers, with 40% less fat.
- 1.5 oz. is a perfect fit for K-12 trayline and al a carte, and Reduced Fat flavor meets strict school nutrition guidelines.

Cheez-It® Crackers should be a part of your chip offering because they outsell the competition in retail: Fritos® Corn Snacks by 4 to 1 and Pringles® Potato Chips by 3 to 1².

*Assumes the sell price is raised from \$0.65 for the 1.5 oz. bag to \$0.85 for the 2 oz. bag.
