- 1) **Items** — The most popular sizes.
- 2) **Need** — Computer systems utilized in restaurants, cash & carry operations, ATM's, etc. are plentiful and growing rapidly. A vast majority of the machines used will need one of the following tapes.
- 3) **Availability** — Our cash register and printer tapes are available at regionally located warehouses along with National Checking Company guest checks.
- 4) **Competition** —
 - A) **Register Dealers** — They charge higher prices as they try to convince the customer that only their roll will fit the register.
 - B) **Mail Order/Office Supply Stores** — Will sell "cheater" size rolls (i.e. on 38mm and 44mm our length is 165' vs. their rolls of 128'-150').
- 5) **Customer Response** — Our rolls have had excellent reaction from customers. A typical response is, "I would rather get these delivered from you than waste my time at an office supply store."
