ROSINA FOOD PRODUCTS, INC. is a family owned, family operated manufacturer founded in 1963. I named the company after my wife, Rose, since her recipes inspired the business. My entire family is very proud of and thankful for the international success of our products.

We feature our traditional Italian Meatballs and sausage. We also market pasta, pizza toppings, meatloaf and eggplant. I personally guarantee that our recipes are authentic, consistent, and made from only the finest ingredients- no meat by-products are ever used. We purchase top-quality beef, pork and poultry to our specifications, which we include in our original family recipes. That is why cutting after cutting Rosina always tastes best!

Please join us in providing convenient, delicious Rosina food products to your customers. Treat them to Rosina...*and they'll be back for more!*
