

Schwartz's PERFECTION IN A PICKLE

SCHWARTZ HELPS YOU MAXIMIZE YOUR PROFITS

THE PERFECT PICKLE FOR YOUR UPSCALE ACCOUNTS

- **Superior taste**—refreshing, to enhance your center-of-plate
- **Impressive presentation**—ideal color; consistent size; excellent plate coverage
- **Always fresh**—produced 52 weeks a year
- **100% guaranteed usable count**—operators get what they pay for
- **Consistent size**—pickle size varies little from pickle to pickle

OPERATORS GET MORE VALUE

- **More repeat business**
 - Better customer experience
 - More taste satisfaction
 - Optimal presentation
 - Excellent plate coverage
- **100% guaranteed usable count**
 - Full pickles; no broken pieces

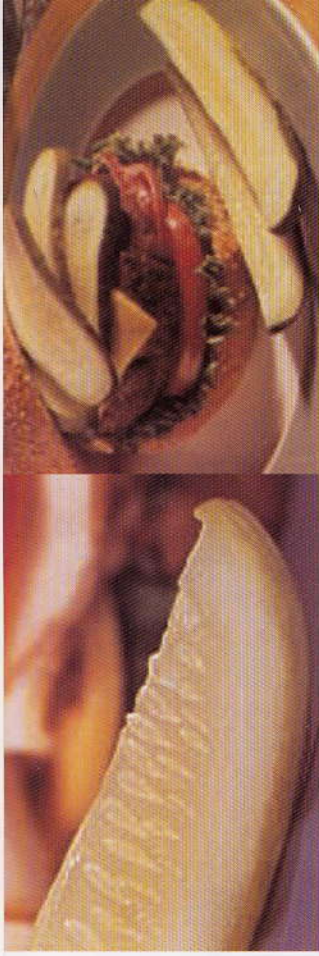

THE SCHWARTZ CLAIM TO PICKLE PERFECTION

- **Never calcium chloride**—made to be refreshing, no aftertaste
- **Only young cucumbers**—small seed pocket to stay intact and not seed out
- **True pickle color**—no Yellow Dye # 5 artificial coloring
- **100% pre-inspection in the field**—by us prior to shipment. Checked for uniform size and color, imperfections and signs of infestation.
- **Continuous supply**—52 weeks a year from dedicated growers in the U.S. and Central America
- **Produced in facility designed to USDA standards**—one of the few in the United States that is specifically for pickle production
- **40 years of experience**—making the premier pickle

THE PICKLE'S PURPOSE

Originally the pickle was paired with sandwiches to cleanse the palate between bites. Deli operators discovered this was a delicious way to make sure that their patrons enjoyed the best possible taste of their sandwich. The pickle's flavor, texture and slightly acidic nature refreshes the mouth and allows the consumer to fully enjoy their meal.
