Xpressnap®
One napkin. Every time.

Only Xpressnap®…
… Can Deliver Savings This Big

Napkin overconsumption can really eat into a restaurant's profits.

With patrons grabbing too many napkins from traditional dispensers, foodservice employees find themselves refilling low-capacity dispensers over and over. And owners must take up valuable storage space with excess napkin cases to meet the demand.

The Xpressnap system dramatically reduces napkin usage. Its one-at-a-time napkin dispensing design ensures that patrons use fewer napkins. In fact, we guarantee that Xpressnap will decrease consumption by at least 25%. And with a high-capacity design and a 50% smaller storage case, Xpressnap delivers substantial labor and storage savings as well.

"Nice design and very easy to dispense, should really help your bottom line over time."
2004 Foodservice Grand Prix Judge

3 Countertop Model

The Countertop model is available for users who prefer the look of a traditional napkin dispenser.

Xpressnap®
One napkin. Every time.

Use 25% Fewer Napkins...Guaranteed!*

Fewer napkins taken...fewer napkins wasted...fewer napkins refilled.

Take advantage of the one-napkin-at-a-time Xpressnap® dispensing system to:
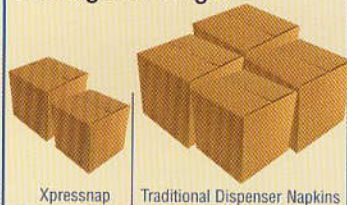

- Increase labor efficiency – the Xpressnap Stand dispenser holds up to 900 napkins, nearly three times the capacity of traditional dispensers.

- Improve hygiene – patrons touch only the napkin they use.

- Decrease storage space – each Xpressnap case is up to 50% smaller than standard napkin cases.

- Advertise – create a custom message and display it in the AD-a-Glance™ message area.

"Tell everyone to use them because we've cut our usage tremendously! People can take as many napkins as they need, but they have to take them one at a time." Chef at Empire State Plaza, Albany NY

Xpressnap Advantages

Storage Savings
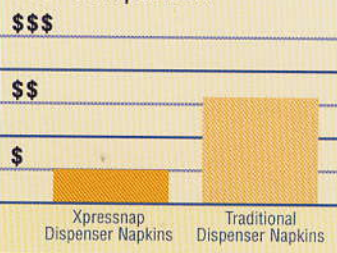

Xpressnap | Traditional Dispenser Napkins

Xpressnap napkins are larger than the competition, but **Xpressnap cases are up to 50% smaller than standard napkin cases,** so you'll need less space to store them. Plus, one-at-a-time dispensing helps decrease consumption, so you'll reduce the number of cases you need to store.

Xpressnap helps you cut costs in two ways: **Reduced labor costs** from using high-capacity dispensers, and **lower consumption costs** through one-at-a-time dispensing.
