

SMART SOLUTIONS

Understanding that value is much more than just price.

## Tork Matic II

- Mechanical Roll Towel Dispenser
- Hygienic – No Touch Dispensing
- Reliable and Consistent – One Towel Every Time
- No Waste – Controlled Consumption and Stub Roll Feature

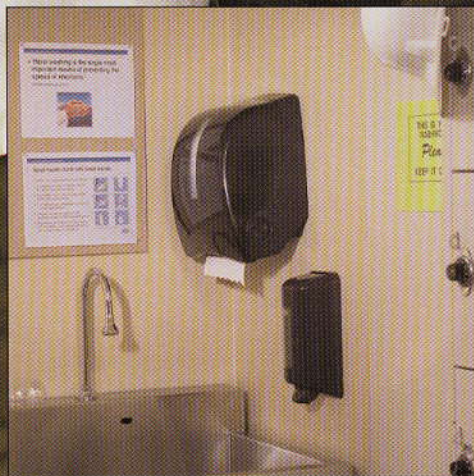

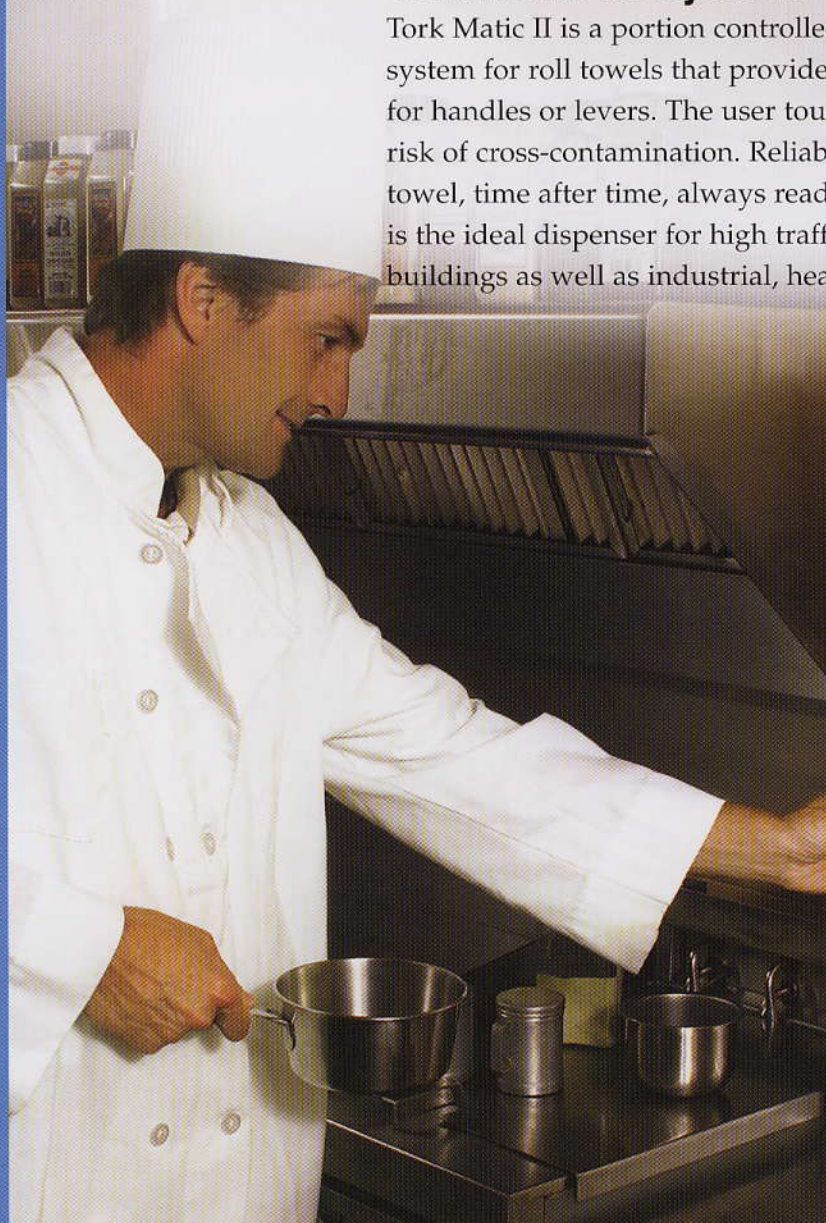

## Tork Matic II System

Tork Matic II is a portion controlled, mechanical hands-free dispensing system for roll towels that provides hygienic dispensing without the need for handles or levers. The user touches only the towel needed—reducing the risk of cross-contamination. Reliable and durable, Tork Matic II delivers one towel, time after time, always ready to service the next patron. Tork Matic II is the ideal dispenser for high traffic restrooms in office and public buildings as well as industrial, healthcare and food service settings.

*Tork Matic II is a good fit for virtually any high traffic restroom or wash station.*

### **Reliable**

Built with precision and attention to the highest quality standards.

### **Hygienic**

You only touch the towel you use. Supports HACCP protocol.

### **Controlled Consumption**

One sheet-at-a-time dispensing.

### **Reduced Waste**

Stub roll feature allows the entire roll to be used.

### **Effortless Dispensing**

Quiet dispensing and easy to pull.

### **Easy Maintenance**

See-through window indicates when it is time to refill.

### **Easy-to-Load**

Automatic paper feeding mechanism makes loading easy.

### **Smooth Design**

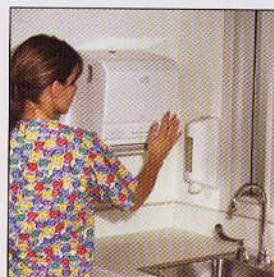

No sharp corners or cavities for easy cleaning.

## User-friendly Tork Matic II cuts maintenance costs

Tork Matic II is a high-capacity dispenser that holds a 700' roll of paper. This, along with its stub roll feature, cuts maintenance costs by reducing the number of roll changes. It also reduces waste by ensuring that all of the towels are used. The user-friendly Tork Matic II system is designed to serve patrons quickly and safely by automatically dispensing a new towel after the previous one is used.

## Tork Matic II gives you flexibility

Tork Matic II is part of a dispenser family that also includes:

- **Tork Intuition** – an electronic dispenser
- **TorkMatic WT** – a watertight dispenser

When hygiene standards are of critical importance, such as in a hospital restroom, the Tork Matic II is the ideal choice. In hospital exam rooms, the Tork Intuition feeds towels by sensing a wave of a hand. In a hospital kitchen, the Tork Matic WT is a great choice. All three dispensers use the same roll towels, allowing for efficient use of dispensing and easier roll towel storage of just one SKU.

## New premium quality towel available

There are three levels of quality towels available for the Tork Matic II:

- **Plus** – Premium quick-absorbing, thicker paper towel with improved softness and strength that feels more like cloth. Ideal for Class-A office buildings and upscale dining facilities.
- **Standard** – Strong, high-quality white paper towel for everyday use.
- **Basic** – Traditional high-quality natural paper towel for everyday use.

Pick the roll towel that best meets your facility's needs. All three towels can be used in any of the following dispensers – Tork Matic II, the watertight Tork Matic WT and the electronic Tork Intuition.

## Easy to Load and Operate

### Move Stub Roll

Drop stub roll to lower compartment to allow the entire roll to be used.

### Load

Automatic paper feeding mechanism makes loading easy.

### Pull Towel

You only touch the towel you use for improved hygiene.

### Dispenser Colors

Quartz White
