Savings on a Roll

#### Cost Savings

- Controlled dispensing reduces napkin consumption up to 30% compared to traditional napkin dispensers
- Durable construction means a long-lasting dispenser

#### Labor Savings

- Dispenser holds up to 40% more napkins than traditional napkin dispensers which results in fewer refills
- Easy-loading system means less time refilling the dispenser

#### Improved Hygiene

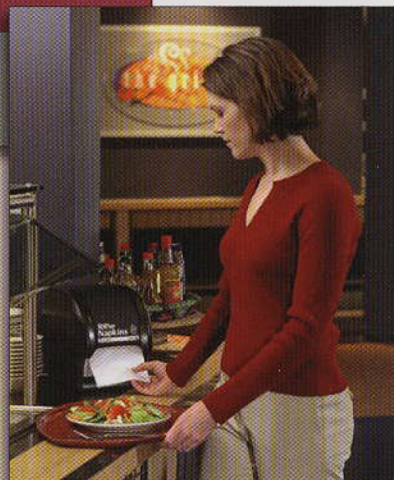

- One napkin at a time dispensing means patrons touch only the napkins they use which helps reduce the spread of germs

# SCA's solution to napkin over-consumption

*Because the RollNap napkins are on a roll they won't blow away, making them a great solution for outdoor venues.*

By allowing patrons to take only one napkin at a time, the RollNap® napkin dispensing system reduces consumption by up to 30%. This results in a substantial reduction in your overall napkin cost.

RollNap is ideal for usage at condiment stations and countertops in restaurants, cafeterias, convenience stores, theaters, sports stadiums, parks or any other high-traffic venue.

Its unique design reduces the need for frequent dispenser refills because it holds 40% more napkins than traditional dispensers. And, your patrons will appreciate the larger-sized napkins.

RollNap's hygienic "pull and tear" system allows customers to touch only the napkins they use.
