Xpressnap[®]

One napkin. Every time.

- One napkin-at-a-time dispensing. Every time.
- Guaranteed 25% reduction in napkin usage, resulting in sizable cost savings.
- Improved personal hygiene – touch only the napkin you use.
- Labor savings – Xpressnap dispensers hold up to 900 napkins – nearly 3 times the capacity of a traditional dispenser.
- Customizable advertising area – create an advertising message that includes your own wording and logo.

There is only one Xpressnap – a revolutionary new napkin system that combines single portion dispensing with the versatility of multiple dispensing options – it can be mounted to a wall, set on a stand, dropped into a counter, placed on a countertop or mounted with a drive thru dispensing option.

Foodservice environments are not all created equal when it comes to their napkin requirements. But all would agree that the labor and consumption costs associated with napkin usage are higher than preferred. Xpressnap provides one napkin-at-a-time dispensing for improved personal hygiene. Since storage is also a concern, each Xpressnap case is up to 50% smaller than standard napkin cases, significantly reducing storage needs.

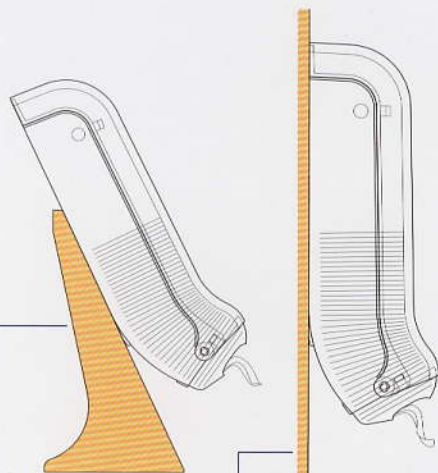

The Xpressnap dispenser ensures effortless napkin dispensing to the customer.

Storage Savings

Xpressnap cases are up to 50% smaller than standard napkin cases, significantly reducing storage needs.

One napkin. Every time.

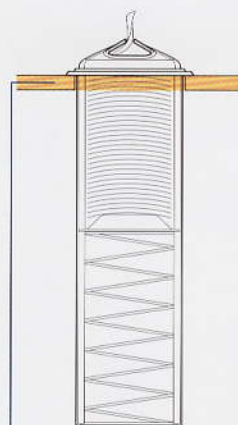

Stand

Wall Mount

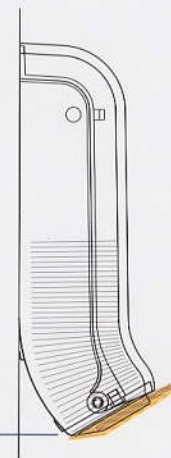

The Xpressnap stand provides stability and holds the dispenser upright. Its portable feature allows the user to easily position the unit at any location.

The Xpressnap wall mount dispenser easily mounts to a wall and can be used as a space-saver when counter space is limited.

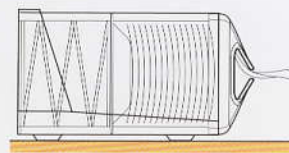

In-Counter

The in-counter dispenser easily drops into a pre-existing counter opening to provide a space-saving alternative to countertop dispensers.

Drive-Thru

For drive-thru applications, an interchangeable faceplate is available for multiple napkin dispensing.*

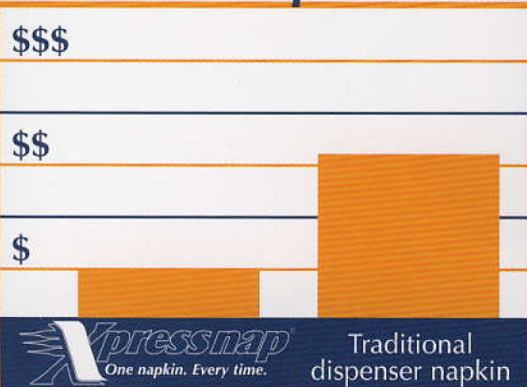

Counter

The countertop model is available for users who prefer the look of a traditional napkin dispenser.

Napkin Product No.	Description	Color	Napkins/Package	Napkins/Case	Open Size W x L	Folded Size W x L	Approx. Lbs./Case	Cubic Ft./Case

Cost Comparison

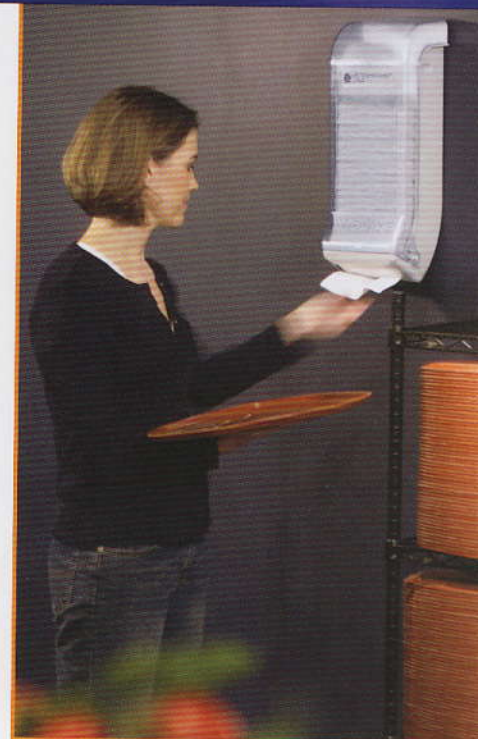

One of the most important benefits of the Xpressnap dispenser is its ability to save you money. Its increased capacity and single portion dispensing reduces napkin usage and labor, resulting in sizable cost savings.

The exclusive design of the Xpressnap dispenser responds to market trends toward versatility, savings and hygiene.

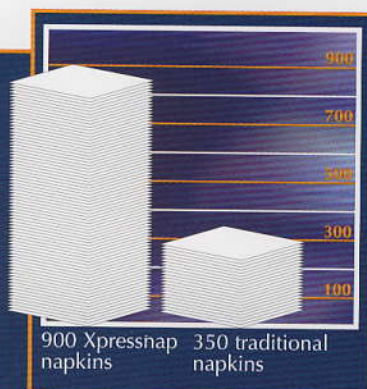

Xpressnap dispensers are easy to install, easy to use and easy to maintain. Their sleek, trendy design fits well within any restaurant setting. The angled dispenser ensures effortless napkin dispensing to the customer. And Xpressnap napkins are larger than major competitor interfolded napkins, offering strength, absorbency and quality to users.

Whether restaurants prefer countertop napkin dispensing or a space-saving wall mount dispenser, Xpressnap, with its five convenient dispensing options, provides a solution for every need.

Custom Advertising Templates

The Xpressnap dispenser comes complete with customizable advertising space, so foodservice locations can create an image and message specific to their restaurants. Please see your SCA representative for more information.

High Capacity Dispenser

Most traditional counter dispensers can only hold about 350 napkins, frustrating restaurant patrons and requiring frequent refilling by restaurant employees. Xpressnap, with its unique design, offers nearly three times the napkin capacity, reducing labor costs, improving efficiency and increasing customer satisfaction.

One napkin. Every time.

With its versatile five-option dispensing system, increased capacity and cost savings, Xpressnap is the best choice for restaurants, stadiums, fast food, or any other foodservice establishment.
