## Tork M-Box Pro WT

The Tork M-Box Pro WT is designed for use in food processing and preparation environments, where cleanliness and hygiene are of critical importance. Transmission of diseases through food contamination is a major concern for all businesses handling food, and industries are going to great lengths to comply with hygiene laws and regulations. The Tork M-Box Pro WT is engineered to help facilities such as meat, poultry and dairy processing plants maintain a clean, healthy environment.

A protocol called "HACCP" (Hazard Analysis Critical Control Points) is followed by the food processing industry. It is a prevention-based food safety system involving actions to control identified risks. HACCP does not require any specific towel dispensers, but the new hands-free Tork M-Box Pro WT units support the intent of the program.

### Tork's Solution for Wet Environments

The Tork M-Box Pro WT is a high capacity towel dispenser that is perfect for wet or humid environments. It is designed to be durable, reliable and watertight. Since food processing dispensers are regularly washed with antiseptic solutions and sprayed down with water, the right dispenser must be able to handle the high water pressure without allowing the paper roll to become wet. The Tork M-Box Pro WT stands up to this challenging environment – keeping the paper dry at all times. It also comes equipped with a feed wheel that restarts the dispenser after washdown or if the paper tail is not showing, allowing workers to have access to towels at all times.

*The Tork family of dispensers offers hands-free dispensing options for improved hygiene.*

*The optional\* mounting bracket allows the Tork M-Box Pro WT to be easily removed for cleaning.*

## SCA's new watertight "Tork M-Box Pro WT" is a high capacity towel dispenser that is perfect for wet or humid environments.

*The Tork M-Box Pro WT is ideal for wet or humid work environments.*

- **No Waste** – No more wet towels due to water seeping into the dispenser.
- **Flexible towel delivery** – Allows you to take one towel at a time or as many as the clean-up job requires.
- **Easy to operate** – Manual feed knob for easy start-up after washdowns and reloading.
- **Reduced cleaning time** – The optional\* mounting bracket makes it convenient to take down the dispenser for cleaning and sanitizing. You simply unhook the dispenser and sanitize.
- **Space saving** – The unit dispenses at any pull angle thus allowing the dispenser to be mounted close to counter surfaces and still dispense well.

### New premium quality towel available

There are two types of quality towels available for the Tork M-Box Pro WT:

- **Plus** – Premium quick-absorbing, thicker paper towel with improved softness and strength that feels more like cloth. Ideal for hand drying and wiping applications in professional kitchens and food processing.
- **Standard** – Strong, high-quality white paper towel for everyday use.

*The new and improved M-Tork Plus roll towels provide users with greater softness and strength.*

### Easy to Load and Operate

#### Pull Core Out

Pull out the perforated core from the roll center.

#### Load

Tuck the towel from the roll center into feeder in dispenser.

#### Turn Knob

Once towel is in dispenser towel feeder, turn knob to advance.

#### Pull Towel

Make sure towel is behind pull bar to allow for easy dispensing.
