FAQS

How does Chef-mate can its food?

Chef-mate uses its proprietary Cooked Before Canning (CBC) method. Most bulk canned food is cooked during the canning process, which often overcooks food near the edges and creates a metallic taste. Chef-mate products are Cooked Before Canning to ensure quality taste, color, and texture in every can. To learn more, .

Can Chef-mate products be frozen after the can is opened?

No. Store remaining unheated portions of Chef-mate products in a tightly sealed plastic container and refrigerate.

How can Chef-mate products be prepared?

Chef-mate products can be prepared on a stovetop, a steam jacketed kettle, pressure or convection steamer, or a microwave oven. See the "Preparation & Storage" tab for complete details.
