Schools participating in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) have to meet the USDA specific nutritional requirements. These requirements are detailed in the Food Buying Guide for Child Nutrition Programs and specifically Section 1 Meat/Meat Alternatives address the creditable cheese products:

[\\*\\*\\*\\*\\*.fns.usda.gov/tn/food-buying-guide-school-meal-programs](https://www.fns.usda.gov/tn/food-buying-guide-school-meal-programs)

Per these requirements the stock number STK19148 LOW-MOISTURE PART-SKIM MOZZARELLA CHEESE item is credited as a meat alternative as 1 stick is 1 oz cheese which provides 1 oz-equivalent meat/meat alternate. CN labeling is not required. The item is creditable as a competitive snack item.

All other applicable program regulations must be followed including the requirement that a serving of finished food served as part of a meal must contribute a minimum of 0.25 ounces of meat or meat alternative to count towards the meat/meat alternative requirement.

Any updates to these regulations after the above noted regulations dates would need to be taken into consideration.

Sincerely,

A handwritten signature in cursive script that reads "Elizabeth Beckman".
